

CPSC 433 Peer Evaluation (Optional)

This peer evaluation is optional. If you think everyone in your group should receive the same mark, you do not need to submit anything for this evaluation. However, if you do submit an evaluation, please **use the following format** and save your file as **PDF**. You can write **as detailed or as brief as you want**. The amount of contribution is represented by percentage. The percentages must **add up to 100%**.

If you want, you can provide screenshots, chat record, email conversation history, and anything that you think can help support your evaluation. Only the TAs and instructor will see your evaluations. Your project marks will be adjusted based on the evaluations from all group members.

My recommendation is to clearly communicate with your group members early and often and keep copies of communications. The early communication is both beneficial for your group being productive, and also the record of these communications will demonstrate the agreed upon work breakdown and the level of participation of the other groups members.

Sample Format
