

A preliminary announcement for FMCS 2004:

Foundational Methods in Computer Science 2004 Kananaski · June 4th - 6th

http://www.cpsc.ucalgary.ca/~robin/FMCS/FMCS_04/index.html

This year's meeting on Foundational Methods in Computer Science (FMCS 2004) will be hosted by the Programming Languages Group at the University of Calgary, June 4th – June 6th and will be held at the Kananaskis Field Station.

Next years meeting will be in Vancouver at UBC ...

Foundational Methods In Computer Science

The workshop is an informal meeting to bring together researchers in mathematics and computer science with a focus on the applications of category theory in computer science. It is a three day meeting, which starts with a day of tutorials (Friday 4th June) aimed at students and newcomers to category theory, followed by a day and a half of research talks (Saturday 5th June and Sunday 6th June). There will be a series of invited presentations (TBA). The remaining research talks are solicited from the participants.

If you wish to give a talk please let us know by sending an abstract and title to Robin Cockett or Craig Pastro (see e-mail address below) before Friday 21st May.

Student participation at FMCS is particularly encouraged. There are limited funds to provide support for students who wish to attend the workshop (see below).

Support for graduate students

We particularly encourage graduate students to attend FMCS and to present their work. If you wish to give a presentation at FMCS you should send a title and a brief abstract to Robin Cockett. We would like to receive these abstracts before beginning of May so that we can arrange the schedule before the meeting itself.

Some limited funding is available to support graduate students who wish to attend FMCS. To apply for this money, you should contact Robin Cockett with the following information:

- A one-page email letter stating your background as well as why you are interested in attending.
- The letter should also state whether you have access to any other funding to attend.
- An email letter of reference from your supervisor or an appropriate other person.

Applications should be made as soon as possible but before Friday 7th May.

Organizer: Robin Cockett (robin@cpsc.ucalgary.ca)
Local organizer: Craig Pastro (pastroc@cpsc.ucalgary.ca)
