

### **Description of program**

- Game runs until the player has won both games.
- Game 1: program generates a number from 1 – 10.
  - Player has 10 tries to guess it (if guessed game 1 won)
  - This game continues prompting for a guess until all 10 tries are used up or the player guessed the number.
- Game 2: program picks one of three colors (red, blue, green)
  - Player has 10 tries to guess it (if guessed game 2 won)
  - This game continues prompting for a guess until all 10 tries are used up or the player guessed the color.
